

ECE 321L exercise - 6

Fall 2017

Exercise 1:

- (a) Modify the provided code (sll.c) in order to print the queue in the reverse order.
- (b) Modify the provided code (sll.c) so as to use a cyclist list instead of a single linked list.

Tip: In order to use the functions as they were implemented in libc, you have to put the following line as the first line of your code:

```
#define _CRT_SECURE_NO_WARNINGS
```
