

## **ECE 321L exercise - 7**

**Fall 2017**

### **Exercise 1:**

Modify the provided code (dll\_print\_sorted.c) in order to print the numbers of the queue sorted (smallest to largest).

*Tip: In order to use the functions as they were implemented in libc, you have to put the following line as the first line of your code:*

```
#define _CRT_SECURE_NO_WARNINGS
```
